Art Unit: 2665

1. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

The reissue oath/declaration filed with this application identify the foreign application, on which foreign priority is being claimed by specifying the application number, country, day, month, and year of its filing as required by 37 CFR 1.63(c). See MPEP 1417.

2. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.
3. Claims 1-5 are rejected as being based upon a defective reissue oath/declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

4. The preliminary amendment filed 28 January 2004 regarding claims 1-5 has failed to comply with 37 CFR 1.173(b)(2), which requires proper markings pursuant to 37 CFR 1.173(c) and (d).
5. The applicant has not surrendered the original patent or contains a statement that the original patent is lost or misplaced in the instant application.
6. The applicant is advised to furnish a Form PTO-1449 listing all references cited in the original patent for proper consideration by the examiner.
7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
